

Appeal to CFTRI School Alumni

Dear Alumni,

CFTRI School, situated in the heart of Mysuru city, was established in 1964 by Late. Mrs. Carolyn W Parpia to cater for the educational requirements of the children of CFTRI employees in Mysuru. In 1970, the CFTRI Education Society was formed, and the school's founder handed over the responsibilities to the society. In the last 60 years of excellence, I feel proud to state that many alumni have identified themselves in diverse areas around the globe. With the cooperation and support of the parents, efficient management, and hard-working faculties, CFTRI school has built a unique position in Mysuru.

In connection with Diamond Jubilee, the school has organised several inter and intra-school competitions like:

- I. Science model making (Inter School Competition) and Science Fest (Intra School competition among VI to X standard)
- II. Inter School English & Kannada debate
- III. Inter School Cricket tournament
- IV. Hindi essay writing competition (Inter School Competition)
- V. Sanskrit Bhagavad Gita competition (Inter School Competition)
- VI. Maths Expo competition
- VII. Mock Parliament

It is also proposed to conduct the Diamond Jubilee Celebration function at Kalamandira on 17.12.2024.

In view of the Diamond Jubilee celebration, the Executive Committee has approved earmarking ₹ 50 lakhs from CFTRI School Infrastructure funds to undertake the following works:

1. Renovation of Carolyn W Parpia Memorial Diamond Jubilee Auditorium.
2. Painting of CFTRI School building.
3. Laying concrete path to Scooter shed.
4. Waterproofing of the rooftop of the school building.

In this connection, the management is appealing to all alumni to contribute to the CFTRI School (Diamond Jubilee Celebration) account given below so that funds can be replenished to the CFTRI School Infrastructure fund and further works like upgradation of benches and tables for classrooms and laboratories, LED tube lights, BLDC Fans, procurement of software and upgradation and maintenance of smart boards, etc can be taken up.
